[Mr. Brick,](#)

I am requesting a copy of the city council meeting video including the dialog shown in reference (1.).

**References:**

*"They pull buildings down in Alaska. They can pull buildings down in Iowa in October, November, December. You know when they could have? They could have pulled the building down three effing years ago," Brick said, prompting some chuckles from council members. "So, yeah, weather will not be a delay."*

*"No matter what, we're going to have a hearing in February where we'll show up and either say, 'They did a good job' or 'They did a crap job' or 'They're not done with it.' So the judge wanted to make sure they stayed involved in this given the problems the city has had the past couple of years," Brick said."*

*"An Iowa man is suing the City of Newton for arresting him after he attempted to criticize the city's police at a public meeting of elected officials."*

*"Video of the meeting shows that during the public comment period, Peterson began reading a prepared statement in which he called the mayor and the police chief "the top two fascists in this town" and called for both to be removed from office."*

3. [Iowa Rules of the Court Chapter 32](#)

Rule 32:4.4 RESPECT FOR RIGHTS OF THIRD PERSONS

(a) In representing a client, a lawyer shall not use means that have no substantial purpose other than to embarrass, delay, or burden a third person, or use

methods of obtaining evidence that violate the legal rights of such a person.

Using an abridged form of an explicit f-word while publicly persecuting a third party's (opposing party) mistakes, inadequacies, or failures while representing and communicating with a government body client that has arrested a citizen for using a non-explicit f-word in the same municipal chambers just doesn't seem logical. Evidence indicating the word was abridged while utilized provides evidence that the speaker knew its use was inappropriate, yet evidence suggests he did it anyway.

Respectfully,

Michael J. Merritt

*"Bricks made with testimony lacking evidence are equivalent to bricks made with straw without clay."*
